

ACE Program Highlights

Science club: Hands on Science experiments to explore, learn and have lots of fun.

Arts and Crafts club: Introduction to art techniques and craft projects. Children will be exposed to famous artists' biographies and work.

Young Chefs club: Children learn to follow recipes in creating yummy treats while they use their math and measuring skills.

Drama club: Inspire the theater artist in your child. Children will perform in plays and skits according to their grade level. They will be employing their language arts skills.

Potters club: Introduction to hand building and some pottery techniques

Musicians club : allows the kids to exercise their musical talents- vocal, string and percussion.

Sports club: Swimming, Tennis, Soccer Basketball, Ping-pong etc.

Archery: focus, concentration and goal setting skills. Archery is a self-challenging and rewarding activity, blending physical and mental resources.

Character first: Teach, encourage and to practice and praise character in everyday life
